External Resources for Self-directed Learning

Members of the cyberinfrastructure team have scoured the web for resources and tutorials to help you identify and learn new data skills.

Topic	Link	Environment
Basics/Syntax	R for Journalists [1] [1]	R
	R Tutorial [2] [2]	R

Many additional topics are available through the following websites or organizations. These are geared towards providing a lot of training material, which the cyberinfrastrucutre staff may be less familiar with.

- NEON #WorkWithData [38]
- Data Carpentry [39]
- Software Carpentry [40]
- Codeacademy [41]
- DataCamp [42]
- Quick-R [43]

If you are looking to participate directly with a larger network of scientific coders, good starting points are the R-bloggers [35] and rOpenSci [44] communities. Finally, if you cannot find a resource for a particular topic that's written for your preferred environment, reach out to the cyberinfrastructure team at cyberhelp@sesync.org [45].
